EVENT INSPIRATION

Winter Wellness

Help your team beat the winter blues with a wellness focus at your next meeting or event. Incorporate bright colors like yellows, oranges, & pinks for an energy boost. Offer beverages high in Vitamin C, like a citrus cocktail or an orange juice bar. Consider a wellness break & share easy methods for your attendees to prioritize their health during these chilly months.

Fun Fact: Just one lemon contains a full day's supply of Vitamin C!

Ski Lodge

Who says you need to travel to Aspen for that cozy cabin feel? Bring the comfort & warmth of a Colorado ski lodge to your next event! With fuzzy blankets, throw pillows, and mountain themed decor, any venue can become a winter getaway. A boozy hot cocoa bar & comfort foods would also add to this theme!

Fun Fact: The word "ski" comes from the Old Norse word "skio", which means split piece of wood

Winter Event Themes

Warm Winter

Below-freezing temps is not everyone's favorite weather. Consider a tropical winter theme! Think winter in the Bahamas, but with the comforts of seasonal foods. Treat your team to a "warm" escape from the cold Colorado weather, they'll love it! Just make sure they remember to bring their coats for when the party is over.

Fun Fact: Our winter is Australia's summer! Not everyone spends the holidays with snow

Hot Cocoa Bliss

Are you looking for something small but mighty for your next meeting? A hot cocoa bar with all the fixings might be what you need! Simple, easy to set up, & a great seasonal pick-me-up. Include fun toppings like whipped cream & chocolate shavings.

Fun Fact: A popular version of hot cocoa in Florida has a whipped mango topping for a fun tropical taste that pairs perfectly
